

## PHOTOSHOOT CHECKLIST FOR DAYTIME & TWILIGHT

Thank you for choosing Uneek Luxury Tours for your marketing needs! This checklist will better help us in quickly capturing the best composition for every room of the house without any delays.

While we do recommend that the sellers leave for the duration of the shoot, we understand that that is not always possible due to a hectic schedule. Prior to the shoot please inform us of any requests ie: no parking in driveway, self locking doors, having shoes on in the home, pets and if something should not be moved or photographed etc. Please **DO NOT** schedule other appointments on the same day of the shoot ie: maids, repairmen, pool cleaner, landscaper, etc. The presence of many people will delay us from shooting both inside and outside which means less time to spend on your home to get amazing shots.

Remember, Less is More!
